CIS133DA SUMMER 2012 – All Sections
Web Site Project Instructions – 240 POINTS

The Project is due on or before Tuesday, 07/17/12 by 11:59 P.M.

READ THE ENTIRE DOCUMENT BEFORE STARTING

Introduction

As an important part of the completion of this course, you will create a Web Project which utilizes the concepts presented in our book. After approval from your instructor, you may proceed with a subject matter focus of your choice. The instructor retains final approval on the acceptability or unacceptability of every project.

Email your idea as a summary (1 page) to me by Tuesday 07/03/12 @ 11:59 P.M. You will receive a 100 point automatic deduction if you do not do so.

Your project will not be less than 10 web pages, utilizing images, CSS and all other elements presented in the book. You will also make use of MS Word 2010 to submit a two page Executive Summary detailing your project and how you created the content. Originality is key- this is NOT a cut and paste exercise. Be thorough in what you submit. Your work should be representative of the material covered in the course, including the use of elements that address the needs of visual and hearing impaired individuals. Additionally, your submission should work with two current browsers. Test your work.

Project Delivery
You will submit your zipped project to me on or before Tuesday, July 17th, 2012 by 11:59 P.M. The submission will include:

1) The zipped file containing all of your web content and the Microsoft Word 2010 Executive Summary.

Complete your work on time. Be prepared to answer questions from your instructor. You should be able to detail all elements of your project in depth.

The Project is due on or before Tuesday, 07/17/12 by 11:59 P.M.
Submit the files via the Assignments area.

In the past, students have been very creative in terms of choosing a project topic. As examples, previous project themes (some fictitious, some real) were:

Creating a non-profit Website
Creating a Website for a Rock Concert
Creating a Music Website
Creating a Website for a Bakery
Creating a Website for a flower shop
Creating a self-improvement Website

Again, be thorough and I look forward to seeing your hard work.
